PROFESSIONAL EXPERIENCE

- **University of Pennsylvania (Upenn)**

  - ***Graduate Research Assistant, GRASP Lab, UPenn***. **Sep 2018-**
    - Conceptualized and implemented an equivariant attention-based neural network for point cloud reconstruction and improved the state-of-the-art by a large margin while achieving zero-shot generalization to real scenes.
    - Conceptualized a mathematical framework for automatic discovery of symmetries in data and implemented a modular and efficient algorithm for recovering and applying useful augmentations while training large neural networks for vision tasks.
    - Implemented a deep network for monocular depth estimation and fused it with IMU measurements using a MSCKF for vision and inertial odometry.
